One of the first technology companies in Qatar gets ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 certificates covering its entire business domains

Consolidated Gulf Co. (CGC), one of the first IT, Telecom and Engineering solutions & services providers in Qatar, has achieved three international standard quality certifications covering its entire business domains. Besides attaining the Environmental Management System ISO 14001:2004 and Occupational Health and Safety Management System OHSAS 18001:2007, CGC also received recertification to the Quality Management System ISO 9001:2008. Significantly, these three prestigious certifications cover CGC's vast business portfolio, fully demonstrating its upgraded capabilities and increased commitment to best practices and principles as per international standards. The certifications came as a result of CGC's well defined approach and full adherence to quality, environment, occupational health and safety of their employees and stakeholders.

The scope of these three quality certifications apply to CGC's wide range of services and operations, including consultancy, front-end design & detailed design, engineering, procurement, supply, installation, commissioning, operations & maintenance of products, systems & integrated solutions and other associated services for large turnkey projects in telecom, ELV, enterprise communications, networking, surveillance, security and radio communications, business automation, e-Business, CAD, 3D Modeling and GIS as well as distribution, retail and service of electronic and technology products and solutions.

The accreditation was awarded to CGC by Velosi Quality Management International Ltd (VQMI), the world's leading inspection, verification testing and certification agency, after a detailed assessment and auditing on CGC's overall business operations. Anil Mahajan, Chief Operating Officer, CGC, formally received the certifications from Sudhir Pandra, Regional Manager, Velosi, during a presentation ceremony at the CGC premises in Doha recently. Tawfeeq Salem, CFO, and other senior CGC officials also graced the occasion.

Speaking on the occasion, Mahajan said, "The ISO and OHSAS certifications further demonstrate our capabilities as a leading technology conglomerate committed to excellence and quality deliverance. By developing and enhancing the company's procedures and policies in conformity with international standards and best practices, we have re-strengthened our resolve to offer a wide range of quality IT, telecom, engineering solutions and services in a safe and environmentally responsible manner. Through our IMS, we re-commit ourselves to minimizing incidents to our employees, clients and environment to zero."

Mahajan further stated, "Having these certifications ensures that the development of technological know-how comes as our strategic priorities, taking into consideration that the technology has become the back bone for overall business success and growth. We expect that the untiring efforts we exerted to attain this international level of certifications would help us serve the industry even better and get involved into a new spectrum of projects."

About CGC: Established in 1987, Consolidated Gulf Co. (CGC) is an ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 certified technology conglomerate headquartered in Doha, Qatar. With diversified interests in Telecom, Information Technology, Engineering and Design Solutions, Mobile Telephony, Construction, Oil and Gas, etc. domains, CGC has been catering to the technological requirements of almost all big giants in Qatar for over two decades. Leading from the front, CGC provides in-depth services ranging from consultancy to engineering, planning, project management, hardware and software supply, manpower services and operation maintenance. Employing in excess of 700 personnel across Qatar and India, CGC undertakes large projects and implements them through its dedicated and highly skilled technical and managerial team of experienced personnel in association with international technology leaders. Proven competence and an ability to deliver desired results in a given timeframe have made CGC special in the market. As the Nokia partner in Qatar for 15 plus years, CGC offers total mobility solutions through its vast chain of more than 300 retail and dealer outlets as well as service centers across the country. For its excellent sales performances and quality services, CGC has been declared four times the Best Nokia Distributor and also won the inaugural Best Nokia Care Partner Award. CGC has also been conferred the Qatar Today Green Award for promoting sustainable protection of the environment. For details, please call CGC Careline +974 44910666 or visit www.cgulfc.com
